

CONTENTS

P. Kudryavtsev On the Issue of Predicting the Strength of Adhesive Joints in Dispersed Systems	...3
P. Kudryavtsev, D. Beilin Aluminum Oxide Nanopowders: Preparation, Properties, Application. Review	...28
M. Ioelovich Cellulose Nanofibers and Their Nanocomposites. Review	...86
M. Ioelovich The Use of Specific Cohesive Energy to Predict the Glass Transition Temperature and Some Other Characteristics of Polymer Materials	...100
E.G.Shahbazov, E.A.Kazimov Scientific Foundations for the Creation of Nanobentonite as a Structural Material	...106
Yu. I. Sucharev, I.Yu. Apalikova Holographic Interpretation of Clusters of Related Water in Gels of Iron Oxyhydrate (III), Yttrium and Aluminum	...117
M. Ioelovich High-Energy Fuel Pellets	...136
P. Kudryavtsev, N. Kudryavtsev Technical Proposals for the Use of Composite Matrix-Isolated Flocculants-Coagulants	...143
P. Kudryavtsev Deceleration of Solid Particles in Soft Condensed Matter	...159
M. Ioelovich Optimal Waste-Free Technologies for Production of Nanocrystalline Cellulose and its Composites	...177
S. Abyshev Methods for Locating UAVs and Radio Control System Devices	...185
M. Barsky Statistical Identity for Vertical Two-Phase Flows	...188

NEWS & EVENTS

Prof. A.BOLONKIN	...197
-------------------------	--------

- **ICMSCE 2022:** 16 International Conference on Material Science and Chemical Engineering
- **ICIAM 2022:** 16 International Conference on Innovative and Advanced Materials
- **NANOMAT22:** Global Summit on Nanomaterials: Applications and Properties
- **75th RILEM:** Annual Work
