

## CONTENTS

<b>M. Ioelovich</b> Using full energetic potential of plant biomass in production of bioethanol	3
<b>M. Ioelovich</b> Specific structural features of celluloses of different origin	9
<b>O. Figovsky, D. Barabash, Yu. Borisov, D. Panfilov, A. Anisimov</b> Structural composites based on nonysocianate polyurethanes	19
<b>P. Kudryavtsev, N.Kudryavtsev, A.Trossman</b> New research and development in the field of inorganic composite materials	25
<b>P. Kudryavrsev, N. Kudryavtsev</b> Nanomaterials based on soluble aluminum compounds	40
<b>M. Friedman</b> High performance polymer films	77
<b>L.Dvorkin, V. Zhitkovsky</b> Modified T. Powers's concrete mixture viscosity equation and calculated dependences based on it	85
<b>J. Spiridonov, V. Mukhin, V.Karpachev, V.Gorshkov, E.Gorshkova, N.Voropaeva, O. Figovsky</b> Soil detoxication by the means in breeding process	92
<b>LETTERS</b>	
<b>V. Zaboronskiy</b> High pressure hydrogen generator as part of a self-sustainable energy complex	101
<b>A. Zabuty</b> Technological advantages of Israeli agriculture	105
<b>O. Figovsky, W. Zadorsky</b> Innovative engineering: developing of engineering education system, the training of innovative engineers	
<b>M. Kozlov</b> From technological evolution to singularity and how to avoid the cognitive devolution	134
<b>NEWS &amp; EVENTS</b>	
<b>V. Krasnopolsky: 70 years from the date of the birth</b>	145
